

## **Bugger American Civilization**

When the Alaric the Visigoth's barbarians sacked Rome in 410 A.D. they had the decency to break things. They pillaged and took prisoners so there was no doubt that Roman Civilization was being trashed. Everyone knew something huge had happened, even if part of the Roman Empire would survive another thousand years (1453, Fall of Constantinople). Clearly, the civilization was in big trouble. So, it was quite thoughtless of the U.S. Supreme Court to not break any windows when they voted to bugger American Civilization. It's the least they could do when they intend to destroy the foundation of our civilization.

The Supreme Court ruled that states could not regulate sexual behavior based on traditional Judeo-Christian values (Lawrence vs. Texas). Not if the Holy Bible bumps against a higher right like the 'privacy' of anal sex between men. The judges find the right to sodomy is superior to the Constitutional duty of states to legislate the boundaries among sanctioned, tolerated and punishable behavior. The rule of law is subject to the tyranny of judges and so are you. The basis of law is whatever the judges make up.

If sodomy is a protected right, then other sexual behaviors – bestiality, incest, adultery, polygamy – have no basis for being wrong. The judges burned the book of standards as good barbarians do. Next, the judges will declare homosexual/lesbian marriage legal. The federal and state laws passed by the people's representatives and signed by elected executives will be sacked just like their 2,000 year old moral-ethical foundation. The foundation of American Civilization will be declared un-Constitutional. What a mockery.

After the judges finish desecrating Judeo-Christian values, what will they do? Will America have Muslim values (one man and four wives)? Why not? How about the old Mormon Joseph Smith's standard of forty wives? Polynesian polyandry? Or, just plain Pagan – make it up as you go along?

American Civilization will fall as surely as Rome. Many of the Visigoth barbarians were Arian Christians. Likewise, the Liberal barbarians will have their sissy Christians lead the charge. As Rome's gates were opened from the inside, so come our destroyers. History shows a civilization lacking the moral will to defend its culture, its borders, its language and history will die. The civilization unwilling to defend itself deserves to die.

Our barbarians wear glasses, robes and have advanced degrees. Yet, they attack the family, the sanctity of marriage, the sanctity of life, individual rights and responsibilities, the Federal system of governments, and the rule of law as well as any axe-wielding Visigoth.

Other Liberal barbarians, sissy Christians and sophists alike, will use the moral

rhetoric of the civil rights movement to demand obedience to their primary secular civic God - Diversity. The sexual perversion for same sex sex will become one of minorities which are more equal than others – thanks to the affirmative action ruling this summer. How soon until Christian speech is hate speech and punished by the government? Evangelical Christians will be the ‘enemies of all humankind’ to modern Pagans as their persecuted ancestors were to Roman Pagans. Young military recruits will have to live with and under soliciting homosexuals that will make the problem with a few Roman Catholic priests petty. And worse things follow, just as before.

The attacks on American Civilization began in the 1960s by Liberal barbarians on and off the judicial bench. They seemed as innocent as the Visigoth families looking for a new homeland. Ending ‘Christian’ public school prayer seemed so right to separate church and state. Allowing women to choose to have abortions or not, felt more proper to control one’s own body. Divorce should be easy. Marriage should be optional. And now, honoring a new kind of marriage between two loving people won’t destroy a single heterosexual marriage – will it?

Yes, pillaging the values of the civilization impoverishes us all. The phenomenal rates of increase in pain and suffering for every social pathology from drugs, alcohol, divorce, abuse, rape, murder, abortion, illegitimacy, pornography, suicide, adultery, school violence, educational failure, AIDS, and on and on have a forty year history. No single court ruling breached our fortress. But all of the assaults on American Civilization had brutal outcomes.

The barbarians are at the gates. Liberal judges bugger American Civilization with impunity. But, a Constitutional Amendment protecting marriage for one man and one woman – period - will hold the castle keep. Then, we can send the legions of common citizens to conquer. We can beat the barbarians. We must triumph with American Civilization or face a long dark age. What will you do?
