

## Ten Reasons to Defend Marriage

*Ten reasons to support a Marriage Amendment to the U.S. Constitution.*

- 1. Defend Traditional Marriage.** The U.S. Supreme Court destroyed state laws governing sexual behavior and imagined a right to sodomy in the Constitution. Now, there is no legal standing for traditional marriage. The Massachusetts Supreme Court will create a 'right' for homosexual marriage. Already, a Mormon has brought suit to make his fourteen 'wives' his legal spouses. There is no reason a Muslim can't have four wives, or anyone can't have a group marriage. Homosexual 'marriage' makes any kind of marriage legal. Yet, marriage between one man and woman to create a family is a two thousand year old tradition.
- 2. Defend Free Speech.** Legalizing homosexual marriage will lead to criminalizing Judeo-Christian speech. If you say the homosexual behavior is immoral and sinful – even to quote the Holy Bible – it will be a criminal offense as it is in Canada today. The suppression of free speech is next on the homosexual agenda.
- 3. Defend American Civilization.** The family – based on a mother and father married – is a pillar of our civilization. No civilization – ever – has defined marriage other than a man and a woman. Even civilizations in decline with rampant homosexuality never pretended that homosexual relationships were the basis for the family. It's biologically impossible for homosexuals to create a family naturally – which speaks to the abnormal nature of their sexual perversion.
- 4. Defend American Values.** Since 1607 marriage and the family were defined in laws based on our Judeo-Christian values. The sanctity of marriage was supported by laws - until now. Homosexual marriage destroys our Judeo-Christian value system. Read the Bible. Our values will become the vapor of situational ethics in making-it-up-as-you-go Liberalism. For example, where is it written that incest, bestiality, and adultery are wrong sexual behaviors and homosexuality is right? Only the sissy Christians and modern, barbarian Pagans who reject the Bible, history, and tradition and hate our values create such folly as same-sex marriage.
- 5. Defend the Constitution.** There is no right to sodomy under a privilege of privacy in the Constitution. Read it. All powers not expressly enumerated belong to the states and the People – including the power to establish which sexual behaviors are illegal. The state legislatures have the duty to legislate on sexual behaviors – like rape, adultery, incest, homosexuality, bestiality, etc. Likewise, the state legislatures make the rules for marriage. The Marriage Amendment will set the powers right.
- 6. Restore Moral Authority.** Destroying the Judeo-Christian American values as the basis of law means there is no legal defense against obscenity, divorce penalties for adultery, etc. No law against incest or bestiality can stand if

- homosexuality is legal. Restore the moral-ethical basis for all laws.
7. **Stop Judicial Tyranny.** The rule of law is in dire jeopardy as the judges write laws from the bench, make up what the Constitution says and impose their will on all Americans. The courts are supposed to be the weakest of the three branches of government. The system of checks and balances is broken because the Courts know no restraint. Your liberty is at risk. Judges are not kings or priests to rule.
  8. **Protect Your Children.** Homosexuality as a protected minority group will be forced on your children in government schools far beyond today's propaganda. Children who express an opinion that homosexuality is a moral wrong will be re-educated, ostracized and punished. The Boy Scouts will be forced to accept homosexual leaders and subject children to more sexual abuse - it will be worse than what Catholic priests did. One per cent of the population, homosexuals, commits over thirty per cent of the sex crimes against children.
  9. **Protect Our Troops.** Soon, a judge will overturn the Military Code of Justice - which declares homosexual behavior is unfit for military service. Open, predatory homosexuality will be forced on the Armed Forces. The sex scandals of heterosexual abuse in the close proximity of the military will be nothing compared to the abuse a practicing homosexual can create in that environment.
  10. **Prevent More Evil.** What caused the increase in social ills – the dramatic jump from the 1960s on – more divorce, illegitimacy, sexual diseases, abortion, AIDs, murder, rape, robbery, pornography, sexual abuse, child abuse, suicide, drugs, alcoholism, educational failure, etc.? Why did only few indices, like murder, decrease briefly in the 90s – when more criminals were in jail? Most likely, the cumulative effect of court-supported assaults on the family and all Judeo-Christian values is an open Pandora's box of social pathologies. How much pain, death, and destruction have we suffered for forty years? Stop the growth of evil. Protect the sanctity of marriage and the family – the foundation of our America.
